Notice of Allowability	Application No.	Applicant(s)
	10/700,004	KAMM ET AL.
	Examiner	Art Unit
	Kevin L McHenry	1725
The MAILING DATE of this communication appe All claims being allowable, PROSECUTION ON THE MERITS IS herewith (or previously mailed), a Notice of Allowance (PTOL-85) NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RI of the Office or upon petition by the applicant. See 37 CFR 1.313	(OR REMAINS) CLOSED in this ap or other appropriate communication GHTS. This application is subject t	plication. If not included n will be mailed in due course. THIS
1. This communication is responsive to preliminary amendme	nt of 8 March 2004.	
2. The allowed claim(s) is/are <u>28-36</u> .		
3. The drawings filed on <u>03 November 2003</u> are accepted by the Examiner.		
 4. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a)		
 Attachment(s) 1. ☐ Notice of References Cited (PTO-892) 2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948) 3. ☐ Information Disclosure Statements (PTO-1449 or PTO/SB/08 Paper No./Mail Date 11/3/03 4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material 	6. ☐ Interview Summary Paper No./Mail Dat B), 7. ☐ Examiner's Amendr	te

Art Unit: 1725

Allowable Subject Matter

1. Claims 28-36 are allowed.

2. The following is an examiner's statement of reasons for allowance: the instant application is deemed to be a nonobvious improvement over the invention of WO 99/00203. The improvements comprise a shot sleeve with a vertical axis and a shot piston that together define a shot chamber above the shot piston that has a horizontal width substantially greater than its vertical depth, wherein a solid metal is melted, the molten metal is treated with a grain refiner, the molten metal is transferred into the shot chamber, the molten metal is cooled within the shot chamber to within a predetermined temperature range without stirring to form a semi-solid slurry, the piston is moved upwardly to inject a central portion of the slurry into a die cavity through a gate opening within a central portion of the shot chamber, and then the slurry is allowed to solidify within the die cavity to form the metal part.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hong et al. (U.S. 2004/0055726) is cited of interest for illustrating the state of the art in semisolid casting.
